[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JANUARY 13.

Dispatches from Bordeaux.

BORDEAUX, Jan. 11.—Official announcement is made that the Germans yesterday redoubled their efforts against the army of Chauzy who pressed on all sides retired to his original position. The action was hotly disputed. One of the French brigades resisted the incessant attacks of the enemy for six hours. Losses considerable on both sides.

Advices from Lille represent that the army of the North under Faidherbe has advanced beyond Berlincaux.

London Dispatches.

LONDON, Jan. 12.—A letter from Berlin, January 10th says:

"Orders are issued that French officers who escape from their places of confinement in Germany shall upon recapture be treated as convicts."

A special from Berlin to the London *Times* says Prussia is seeing antagonism on the part of Austria to the wishes of the Czar on the question of the Eastern is endeavoring to effect a postponement of the London conference. The same correspondent mentions that Turkey is willing to dispense with action by Powers on the subject.

Bombardment of Paris.

A Brussels' dispatch of the 11th says the result of 10 days bombardment of nine forts and seven French batteries between the forts, is that no serious damage has been done and not a single gun dismounted. But 320 Germans were killed and wounded. Mount Avron was swept by the French fire, and the Germans evacuated the position. The guns at Clairmont reached Invalids and Champs de Mars.

Paris advices of the 8th says shells are falling on Montmartre, and persons have been killed in the church at Salphio.

Fire in Paris.

LONDON, Jan. 12.—A large fire is raging within Paris on the north side.

Arras Summoned.

BRUSSELS, Jan. 11.—Arras has been summoned to surrender.

New York Tribune's Dispatches.

LONDON, Jan. 11.—*A Tribune* correspondent at Versailles writes that batteries are advanced one thousand paces nearer D'Issey and Vanvres. Shells are falling in Luxemburg Gardens. The population demand the Government to make changes. They want a fighting general instead of Trochu. Manteuffel is here, but starts in the morning to take command of the new army, consisting of the 2d, 7th and 14th corps, which is marching via Troyes to support Gen. Von Werder and occupy the Lyons district. Manteuffel leaves Gen. Von Goeben in command of the 1st and 8th corps of the Landwehr Division, which is enough to take care of Faidherbe.

A correspondent at Paris writes that the city has been shelled for three days. Shells are falling throughout the district of Antueil and the Hotel des Invalides and Pantheon. Damage slight; but few civilians killed.

German Dispatches.

LONDON, Jan. 12.—The Grand Duke of Mecklenburg telegraphs as follows: After crossing the rivulet of Houne, on Tuesday, we fought on the next day a hot but victorious battle at Lombon and La Chapelle, taking nearly 10,000 French prisoners. Our loss was inconsiderable. We are advancing on Le Mans.

WASHINGTON CITY.

Congressional.

WASHINGTON, Jan. 11.—Senator Cole introduced a bill for the relief of Census Marshals, directing the Secretary of the Interior to increase one hundred per cent. the compensation to Assistant U. S. Marshals west of the Rocky mountains.

The Senate confirmed the nomination of Herman Bendel, of New York, as Superintendent of Indian Affairs for Aritona, and of Alex. H. Conner as Governor of Idaho.

Surplus Revenue.

WILL THE SURPLUS REVENUE OF THE UNITED STATES FOR THE PRESENT YEAR EQUAL THAT OF LAST YEAR?

[From the Boston Advertiser.]

For the first quarter of the current fiscal year the surplus revenue has reached thirty-nine million dollars. It has run at the rate of thirteen million dollars per month, from the 30th of June to the 30th of September, or rate at the of one hundred and fifty-six million dollars a year; a sum it would have been most unwise to have drawn from the people in a single year for the payment of our debt. The returns for October last show a decline in the revenue from thirteen million dollars to five and a half million dollars; and in November to seven and a half million dollars, and the question arises, is this decline temporary or continuous? The solution of this problem is of importance, as it bears on the possibility of a further reduction of our imports. The public very naturally ascribe the the decline in our revenue for October to the reduction of our internal taxes made by Congress at its last session. This reduction was at the rate of four and a half million dollars per month, and took effect on the first of October; but this alone would not account for a decline of seven and a half million dollars in the net revenue for the month. To-thirds of the decline were due to the fact that the national expenses for October exceeded our average monthly expenses by more than five and a half million dollars.

The average expenditures of government, excluding interest, are about thirty-eight million dollars per quarter, but are very unequally divided, and a large proportion, viz., nearly half the expenses of a whole quarter, fell upon the single month of October. Consequently such expenditures will bear lightly on the ensuing months of November and December. The interest, too, from the reduction of the debt, is declining at the rate of six hundred thousand dollars a month, and the civil list is declining also, from the discharge of clerks and officers who have ceased to be necessary. The estimates for pensions and the army are also below those of last year, and we may now reasonably anticipate from these causes a diminution of two million dollars a month in the closing months of the year.

It is obvious, then, that October has suffered from the expenditure of more than five and a half millions which do not belong to it, and also from the repeal of internal taxes to the amount of four and a half millions, forming an aggregate of ten millions, which would have cut down the surplus revenue of the month from thirteen millions to three millions; if the amount had not been carried above five by the saving in interest and expenditures.

For the future there is another element which will operate in favor of revenue as taxes and duties are reduced, and that is the *elasticity* of revenue. The natural growth of our national income from year to year is at least twenty-four millions or six per cent. on four hundred millions, but when duties or taxes are reduced the residue becomes more effective, and we may safely estimate this growth or elasticity at two and half millions per month for the residue of the fiscal year. These, with the two millions a month saved in expenses and interest, will together offset the reduction of four and a half millions a month in the internal revenue, and leave us for the fiscal year a surplus of one hundred millions. This will make an average of eight and one-third millions a month, which was the average of last year; but we must not forget that under the act of the late session of Congress a reduction of twenty-four millions a year in customs will take effect on the 1st day of January, 1871. This is equivalent to two millions per month. This would reduce our surplus revenue for the last half of the fiscal year two millions per month and bring it down to six and one-third millions a month from December to July.

For the first four months of the fiscal year we have realized a surplus revenue of forty-five millions; for the second half of the year we have shown six and one-third millions a month, or thirty-eight millions, making an aggregate for ten months of eighty-three millions; but we have passed over the two intervening months of November and December. These are two of the least productive months of the year, the imports are light, and groceries will be held back for the reduced tariff which takes effect in January.

It is not safe, therefore, to allow in our estimate for these two months more than fourteen millions. This will carry the surplus of the fiscal year to ninety-seven millions, all applicable to the reduction of the debt.

Having thus disposed of the current fiscal year, the question arises, What will be the surplus of the ensuing fiscal year which terminates June 30, 1872? There are but two elements materially affecting the revenue for this period which lead to any variance from the results of the current year. The one is the reduction of duties which takes effect on the first of January, and will reduce the revenue two millions per month, for the first half of the coming year. This will operate next year on 12 months in place of 6 months in the present year. The second is the reduction on the internal taxes of four and a half millions per month, which will bear on 12 months in place of 9. The combined effect of these is equal to a reduction of twenty-five and a half millions upon the coming year. But this reduction will doubtless be met by a reduction in the interest we pay of more than six million dollars, and by the elasticity of revenue; it will be more than counteracted, should we succeed in funding our national debt at a lower rate of interest. We may therefore reasonably anticipate for the ensuing fiscal year a surplus revenue as large as that of the year which terminates in June.

These figures and conclusions are drawn from a close analysis of the official returns of the bureau of statistics; if they are fairly drawn they will show that we may safely strike from our statute book sixty million dollars more of taxes and duties and still keep an ample sinking fund.

Such is the growth of our revenue that our excess alone will this year yield more than one hundred million dollars; if promises before autumn to meet the whole interest of our debt, and bids fair also to extinguish its principal before the close of the century. Commissioner Delano's estimate of one hundred and twenty-six million dollars from internal revenue for this fiscal year, is much within the mark, as may be shown by his recent report. The internal revenue last year yielded, according to this report, one hundred and eighty-five million dollars. The reduction made by Congress, at its last session, took effect October 1, and by official estimates will not for nine months exceed forty million dollars. If we deduct this, we have one hundred and forty-five million dollars in place of one hundred and twenty-six millions. But the report adds that the elasticity or growth was twenty-five million dollars, chiefly drawn from spirits and tobacco, still progressive. If we add this for the amount given, we have a revenue from internal taxes of one hundred and seventy million dollars in place of the one hundred and twenty-six million, or an excess of forty-four million dollars above the estimate.

Russia Preparing for War.

THE FORTS AND FLEETS OF THE CZAR—ARMS, AMMUNITION AND ARMIES.

[From the New York Tribune.]

Colonel Gowen, an American engineer, who has recently returned from a stay of many years in Russia, gives some interesting facts in regard to the armament of that country. In relation to the defenses of the Black Sea, he states that Fort Nicolai, at the entrance of the Sea of Azov, near Kirtch, is now one of the strongest forts in the world. It is so constructed that 300 guns can be brought to bear at the same time upon vessels approaching from any point. The fort is supplied with 15-inch

STEEL KRUPP GUNS,

the heaviest made in the world prior to the Franco-Prussian war. A long artificial bar stretches out from the opposite shore, a distance of seven miles, to within half a mile of the fort. This bar, built of stone, at an expense of $20,000,000, virtually closes up the entrance to the Sea of Azov.

AT SEBASTOPOL,

the fortifications on the northern side are intact, but those on the southern side have never been rebuilt. During the last five years no less than three engineering parties have been sent to Sebastopol by the Government, to commence the work of rebuilding, but in each case the attempt was abandoned. On the Baltic Sea, Cronstadt, and Helsingfors and Revel, commanding the entrance to the Neva, have been so strengthened as to be considered impregnable.

THE FLEET OF THE CZAR ON THE BLACK SEA,

the cause of the present controversy, includes no iron-clads. It contains 20 small steamers of the gunboat class, not plated, although intended for transformation into iron-clads. The Government have evaded the provisions of the treaty of Paris, which forbids them to have more than six vessels in the Black Sea larger than corvettes, by constructing what are called transports. These are large frigates, pierced for guns, which can be made available for war purposes in a very short time. This illicit navy is still further increased by the 80 steamers of the Russian Steam Navigation and Trading Company, which was formed by permission of the Russian Government, immediately after the termination of the Crimean war, the royal family owning the greater part of the stock. A subsidy of $2,000,000 a year has put the company on such a footing that it is now paying twenty-five per cent. on its stock. These steamers—twelve of them over 3,000 tons burden, and all of them fast vessels—are now running to Constantinople, Cairo, Marseilles, and London. They are all commanded by former officers of the Russian navy, who have been placed upon the retired list, and manned by sailors formerly of the same navy. These fleets can, it is estimated, transport 300,000 men at one time. The French and English Governments are represented in the Black Sea by small gunboats stationed at Galatz, at the mouth of the river Danube.

THE NAVAL FORCE OF THE BALTIC

Consists of a fleet of iron-clad frigates, built in England; 28 iron-clad monitors on the American plan, 43 line-of-battle ships of the first class, including the *Grand Admiral*, built by W. H. Webb, and 90 small gun-boats, carrying from four to six guns. On the Caspian Sea there are 30 or 40 steamers, hardly available, however, for warlike purposes. The country seems provided with all facilities for

THE MANUFACTURE OF MUNITIONS OF WAR.

Native supplies of nitre and sulphur prevent any scarcity of powder, that otherwise might result from the discontinuance of friendly relations between Russia and the other Powers. There are large stores of powder throughout the country, Fort Constantine alone having 5,000 tons within its walls. At Nicolaief, the chief depot of the Black Sea Department, situated on the river Boog, about 60 miles from its mouth, all the line-of-battle ships are built. It has large shipyards, foundries, rolling mills, planing machines, and all the necessary adjuncts of a complete arsenal. At Toula there is a large manufactory which has been turning out 1,000 breech-loaders a day for the last two years. A large establishment for the

MANUFACTURE OF PLATES FOR IRON-CLADS,

The machinery of which cost $1,500,000, is situated on the river Don. Colt's revolvers are manufactured in large quantities at Toula by machinery, purchased in America from Col. Colt himself. The arsenals of the Empire contain, it is estimated, about 2,500,000 stand of arms. The Russian Government, as is well known, has been an eager buyer of the large quantities of the surplus machinery used by the United States Government in manufacturing war material.

THE ARMY OF RUSSIA

Available at the present time, numbers 850,000 men. The army of the Caucasus, under the command of the Grand Duke Michael, numbers 250,000, and can be mustered in a very short time. Beside all these, there are 1,200,000 reserves, who, having served a certain period in the army, resume their usual vocations, subject, however, to the call to military duty. By the aid of 6,000 miles of railroad recently constructed, large bodies of men could be quickly massed at St. Petersburg, at Taganrog, at the mouth of the Don, at Kirtch, Sebastapol, or Odessa. The

FINANCES OF THE COUNTRY

Are in such a state, it is said, as to embarrass the necessary operations of the Government if war should be declared. The currency has been depreciated twenty-five per cent. by the expenditures attendant upon the construction of railroads through many parts of the country almost destitute of inhabitants. Colonel Gowen regards the popular

MISUNDERSTANDING OF THE QUESTION AT ISSUE

As something marvelous. Russian merchants pass through the Dardanelles, and no one fears for the Sultan's tenure of authority; but when it is proposed that Russian gunboats shall exercise the same privilege, this is immediately assumed to imply the deposition of the Ottoman sovereign. A long residence both in Russia and in England, and an intimate acquaintance with the opinions of both peoples, convince Colonel Gowen that a Conference can only delay the catastrophe. The Russian people are strenuous in their demands, and the English are emphatic in their refusal. There can be, he claims, but one result, namely, war.

The Northern Pacific Railroad.

The second highway across the continent is now in full process of construction. Discussing the present status and prospects of the road, the Philadelphia *Evening Telegraph* says that last July contracts were let for the building of the Eastern division, reaching across the State of Minnesota from Duluth, at the head of Lake Superior, 240 miles to the crossing of the Red River of the North. With several thousand men employed, the grading of this section is fast approaching completion, and the iron is being laid at the rate of one or two miles a day. In the meantime engineers are locating the line westward through Central Dakota; preparations are completed for the commencement of work at the Pacific end next spring, and thereafter the work of construction will be prosecuted from both extremities toward the center.

In addition to this, the Northern Pacific Company have recently purchased and practically consolidated with their own line the St. Paul and Pacific Railroad, embracing some 300 miles of finished road in Minnesota on which a prosperous business is already doing. This purchase removes all rivalry between conflicting interests, and practically makes St. Paul one terminus of the great Northern road. The Northern Pacific Railroad system is certainly assuming a definite form and comprehensive proportions. Obviously, its projectors do not intend to build a simple trunk road from East to West, and then wait for a profitable traffic to come to it. On the contrary, they are at the outset securing such connections and alliances with the chief lines of water communication, and with the railroad systems of the Atlantic and Pacific States, as cannot fail to bring to it, in addition to the local business, a large and increasing share of the carrying trade between ocean and ocean. At Duluth one arm meets the commerce of the Lakes and the St. Lawrence; at St. Paul the other eastern arm connects with the commerce of the Mississippi river and its tributaries, and with the railway of the Central and Eastern States, concentrating at Chicago. These two arms will unite in Western Minnesota. From the point of junction a third branch will extend to Pembina on the British border, and the trunk line will traverse Central Dakota, and follow the now famous Yellowstone valley through Montana. Near the boundary of Idaho, the road will again branch—one line following down the valley of the Columbia to tide-water at Portland, Oregon; the other striking directly across the Cascade range to the main-terminus on Puget Sound. A North and South branch will also connect the Puget Sound terminus with that at Portland. At the latter point connection is made with the coast lines of road now building southward through Oregon and California. But at Portland and Puget Sound the road will tap the coastwise and foreign trade of the Pacific Ocean.

The chief advantages peculiar to the Northern Pacific route are believed to be these:—

First—It reduces the distance between the the lakes and the Pacific ocean some 500 miles.

Second—It lessens the distance between New York and the Pacific by water and rail to the same extent.

Third—It lessens the distance between London and Chinese ports by the transcontinental route at least 1,400 miles.

Fourth—It traverses a belt of States and Territories admirably adapted, by fertility of soil, mildness of temperature, and equal distribution of moisture, to profitable agriculture.

Fifth—Its elevation in the mountain region is 3,000 feet less than that of other lines, resulting in a diminution of snow-fall, a mild climate, and far easier gradients.

Sixth—At convenient intervals it intersects numerous navigable streams—such as the Columbia, the Cowlitz, the Yellowstone, the Missouri, the Red, the Mississippi—which drain a vast region, and will serve as feeders to the road.

Seventh—It will partake of the character of an international route, permanently controlling the carrying trade of British America, and rendering the important colonies north of the boundary and west of Lake Superior commercially tributary to our Northwestern States.

Already it is stated that settlers are rapidly crowding to the line of the Northern Pacific road in the Northwest, and judging from what is known of the plans adopted for promoting the settlement and development, through emigration and colonization, of the belt of States and Territories tributary to the line, there would seem to be no doubt that the corporation upon which the Government has conferred this great trust is determined to make the enterprise not only financially sound, but greatly and permanently beneficial to the whole country. With its munificent endowment of fertile lands, with the natural advantages this route undoubtedly enjoys, and with the far sighted policy already inaugurated, a great commercial project could hardly start under better auspices or with greater assurances of success.

From the figures it appears that the European war has a decided effect upon emigration to this country. At this time last year the arrivals had amounted to 255,449; while from January 1st, 1870, up to the present date but a little over 208,000 emigrants have been reported at Castle Garden.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

WASHINGTON CITY.

WASHINGTON, Jan. 13.—The Senate held an executive session yesterday, lasting over an hour, for the consideration of the nomination of Admiral Porter, and is now in session. Nothing new was said in the early part of the session, and the same old arguments, for and against his confirmation, were made by his friends and opponents. Morton, Nye, Abbott and others advocated his confirmation as an act of justice to a brave officer, and holding that if the President could afford to nominate Porter, they could afford to confirm him, and that personal considerations ought not to influence members. Towards the close of the session the question was raised that if the Senate failed to confirm Porter, he would be out of service, as he had been constitutionally appointed, and his previous commission as Vice Admiral had been vacated by the appointment of Rowan. This was a new view of the case, and was discussed by the best lawyers in the Senate. The affirmative side of the question in the right one, as Rowan had been nominated for Vice Admiral, and if he be confirmed to Porter's old position, before the case of Porter should be acted on and Porter subsequently rejected, he could not go back to his former rank which had been constitutionally filled by Rowan. He would thus be out of service. This view of the case will operate in Porter's favor as Senators are not disposed to legislate him out of service. Were it not for this question to be rejected by a large vote. When the [illegible] been discussed for some time [illegible] as adjournment. [illegible] vote was taken on [illegible] majority carried their point. [illegible] vote was taken to day and the [illegible] general that he may be confirmed by [illegible] rity.

WASHINGTON, Jan. 13.—Hon. Sumner, who was tendered a position on the Commission to San Domingo, was forced to decline on account of a suit in which he was interested in relation to the Methodist Book Concern. Fred Douglass was with the President yesterday. Rumor again couples his name with the Commission. A letter has been received from Gen. Sigel withdrawing his acceptance of the appointment as Secretary of the Commission to San Domingo on the ground that he is not sufficiently versed in the Spanish language as required by the Senate resolution. The third Commissioner [illegible] to-day been appointed.

The ship will [illegible] only drop down to anchorage off Dilla [illegible] day to take her powder on board. Yesterday the powder boat was unable to reach the Island, in consequence of masses of ice surrounding it. Another effort was to be made this morning with tugs.

CALIFORNIA.

San Francisco.

SAN FRANCISCO, Jan. 13.—The California, Pacific and [illegible] elected the [illegible] Directors [illegible] on the Pacific Railroad, as follows: London; Collis Huntington, New York; Frankfort; E. B. Crocker, New York; [illegible] Jackson, Eugene L. Sullivan, P. H. Atherton, John Parrott, and M. S. Latham, and announce their intention of pushing the work on the main line and branches, and declare that no transfer of a sale or absorption of the line in the other company is wholly unfounded. They will make extensive improvements in Calif[illegible]

The Pacific Railroad Company's ferry steamer will be ready for work by the arrival of the next steamer from China. With her, six trips a day can be made, as China steamers may be relieved of cargoes by the railway company at the rate of 1,000 to 1,500 tons a day. The time between Japan and Chicago will now be reduced to 34 to 36 days, to New York 37 to 40 days, and to England about 60 days.

Dion beat Deery in a grand billiard match last night, on the hundred and thirty-fifth inning—scoring 500 against Deery 478. Neither party played with anything like their usual skill.

CURRENT NOTES.

A contract has been concluded for building the new National Railroad between New York and Philadelphia, and the work will be commenced immediately.

There is little doubt that Prim was assassinated by some lower zealous Republican, who believed him the worst enemy of the cause. So says a cable telegram.

Official reports show that in Sweden and Norway 97 out of every 100 children between the ages of five and fifteen, attend school—a larger per centage than anywhere else.

The Boston *Traveler* humorously says: The last sum fixed to be paid by France to Prussia for a whipping is about $240,000,—a big price for a bad article. It shows that Pruss

The Daily Oregonian.

SATURDAY MORNING, JANUARY 14, 1871.

A Clash of Authorities.

The *Herald* is kind enough to inform its readers that the American Protective System is a system of "gross injustice, iniquity and unconstitutionality." It probably desires them to take this *doctrine* for sound Democratic doctrine. But there once was a Democracy of another kind. Thomas Jefferson is generally recognized as the father of the principles of the Democratic party. The *Herald* clings tenaciously to the creed he announciated. Now we desire to give that paper a lesson from Jefferson, which we fear may have escaped its observation thus far. In his message of 1808 he said:

> The situation into which we have been thus forced has impelled us to apply a portion of our industry and capital to internal manufactures and improvements. The extent of this conversion is daily increasing, and little doubt remains that the establishments formed and forming will, under the auspices of cheaper materials and subsistence, the freedom of labor from taxation with us, *and of protecting duties, and prohibitions, become permanent.*

The *Herald* tells us that protecting duties are "unconstitutional." The father of its party, however, and the man whom it quotes day by day as a fixed and universally recognized authority on political economy and constitutional law, has pronounced in the most emphatic manner in favor of this "unconstitutional" system, which he would push to such an extent as to "prohibit" the importation of foreign goods, when the interest of our own manufactures demanded it. And since protection is said to be unconstitutional we will quote another eminent Democratic authority on that point,—we mean Mr. Madison

> Congress have not the power to protect the same in the country, it is annihilated for the entire policy without example in any other nation and not within the reason of the solitary one in our own.

Further, as we showed the other day by liberal extracts from the writings of Gen. Jackson the great and eminent Democrat was so decidedly in favor of the protective system that when a candidate for President he declared that the system was necessary to preserve and perpetuate the Peace and the Democratic Legislature of Louisiana appealed to the people of that State to vote for him because he was so zealous an advocate of the doctrine that American labor and American manufactures should be protected. Now if all this was inconsistent with the principles of "modern Democracy" and the old and the republican authorities are very much behind the times, such doctrines. But there are those who, somehow, with perseverance in themselves better authorities, and will read for those of the so-called "new light" in the Democratic party. We find more lawyers and statesmen of the United States, almost from the adoption of the Constitution

> down to original [illegible] says:

That [illegible] ...ery, and the [illegible] ...ld not now [illegible] ...ions if it were thereof [illegible] ...ry given on or before the second Tuesday in February next thereof or [illegible] ...provisions of law all the States Territories and the District of Columbia, formally assumed payment of the tax except Delaware the Territories [illegible] and the seven insurrectionary States for which no [illegible] were made for collections to be made in Delaware and Colorado by internal revenue officers and in the seven insurrectionary States on the appointment of United States Assessors and Commissioners under an act of Congress approved June [illegible] 1862.

By the act of Congress approved July 1, 1862, the operations of the act of August [illegible] 1861, were suspended on [illegible] April [illegible] ...ared to be in addition to the existing tax of $20 00 [illegible] ...further suspended [illegible] ...was had. The [illegible] ...ates and Territories appear to have satisfied their patriotism in Maine, New Hampshire [illegible] ...Massachusetts Rhode Island, Connecticut, New Jersey, Pennsylvania, Maryland West Virginia, Ohio, Kentucky, Indiana Illinois Missouri, Michigan, Iowa, Minnesota Nevada, Nebraska, New Mexico, Dakota, and the District of Columbia. Against New York Wisconsin, Kansas, California, Delaware, Oregon and Washington Territory, there are [illegible] ...ssessed amounting to about $1,312,000. Oregon and Utah have paid no part of their quota.

The "Patrons of Husbandry," a secret order of agriculturists and patrons of agriculture was started a few months ago in several States, and is said to be rapidly extending in every direction. The objects of the society, it is declared, are to protect, by mutuality of understanding, the business of agriculturists, and to promote among them a greater and freer sociality of intercourse and acquaintance. The meetings of the lodges are made not only occasions of business consultation and conference, but also for social interchange—the wives and daughters being admitted to membership and elevated to office, the same as the fathers and sons. In each State where the order has been established it is intended to hold a "State Grange" at the time the State Agricultural Society's Fairs are held, which will be composed of delegates from the local "Granges." In Iowa and other States much interest is already taken in the new order.

The *Herald* whines a great deal about not obtaining the city printing at "litigant rates" We can give a few figures which will account most satisfactorily for its anxiety on this subject. Aprons are needed for sidewalks on First street. Notice must be given to the owners of the property of the intention of the Common Council to make that improvement. It is calculated that the materials and labor will cost $92. To print the requisite notice in the "organ" at "litigant rates" would cost $126, or $34 *more than the improvement itself.* Again, for the printing of the Auditor's report a few days ago the sum of $20 08 was paid. Had the *Herald* printed it under that blessed "litigant law," it would have received just $98. These figures indicate in a most suggestive manner the cause of the *Herald's* anxiety to obtain the city printing. It's "retrenchment," you know! Those rascally Radicals do steal so!

A riot took place among the employes on the Northern Pacific railroad near Brainard (Minn) the last week in December. The disturbance grew out of some of the operations of the sub-contractors. Cars, shanties and other property were destroyed by the rioters. The civil authorities were called upon to quell the disturbance, but were unable to do it. A call was then made on Gen. Hancock, who ordered the military at Fort Ripley to repair to the ground and restore order, which was done. The rioting lasted a week, and resulted in the destruction of several thousand dollars worth of property and much additional loss in the delay of the work. Gregg & Co., sub-contractors, who failed to meet their engagements with the workmen, which was the original cause of the difficulty, absconded.

"On every State battle-ground the Republicans are defeated." So says the very reliable "litigant organ," published in this city. If we accept this statement as true, we shall be sorely puzzled to account for the great and remarkable fact that the Republicans have just elected a large majority of next Congress.

It is said that Mr. Juhan, of Indiana, will probably be appointed Commissioner of the General Land Office. If he is, our Oregon land ring, as well as some others, will have a hard road to travel.

OREGON.

The interments in the Jacksonville cemetery during the year 1870 were 26 in number.

A ledge of excellent coal has been discovered in Jackson county between Bybee's ferry and the Meadows.

A few days ago a man named Helm, from Salem was taken with small pox at Dayton. No other cases have been reported.

The *Democratic Times* is the name of a new paper just started at Jacksonville by J. N. T. Miller & Co.,—E. D. Foudray, business manager.

Following are the newly elected Directors of the Linn County Agricultural Association: A. Hackleman, Nimrod Price, A. Parker, D. Froman, E. H. Griffin, M. Luper, J. B. Comley.

The son of B. F. Harding, of Marion county, who was shot on last New Year's eve, whose recovery was very doubtful, is improving slowly, but it will be some time before he will be able to be out.

At Oregon City, a few days ago, a boy named Nathan Hulery stabbed another boy several times in the back, inflicting severe though not dangerous wounds. The quarrel was about an old watch.

At the late term of the Circuit Court, at Astoria, Jose Rodriguez and his accomplice in a murderous assault upon an old man, Wm. Harrington, were sentenced each to 18 months in the penitentiary.

J. G. Chapman, Esq., has obtained judgment against those two legislative dead-beats of Yamhill, Shunk and Townsend, for attorney fees for services rendered in helping them get the seats they were not entitled to.

From the Scio *News* we learn that two ferry-boats are now in process of construction, to ply on the North Santiam, between Scio and Marion. One of them at the old ferry landing known as Robert Wood's, the other at a place on or near the direct line from Scio to Marion, where a new road is talked of.

At a meeting of the Directors of the O. B. P. R. R. Co., of Jacksonville, held at the office of the company in Jacksonville on the 5th inst., the resignation of Hon. Jesse Applegate was received and accepted, and James T. Glenn was thereupon elected to fill the vacancy. Messrs. J. C. Tolman, J. N. T. Miller and J. D. Fay were appointed a committee to draft by-laws.

From the Albany *Democrat*: Our farmers have at last reached the Mecca of their hopes when in a dollar a bushel in this city—and the heretofore elongated visages of our agricultural friends have assumed their natural shape again and their goose is elevated to a prodigious altitude. Of course all the rest of us rejoice with our farming community, for their prosperity is ours also.

The *Times* (Jacksonville) has this: On the 30th Coroner Ganung held an inquest on the body of a newly born infant found in a shallow pool of water a short distance from Mr. Magerle's house, on Evans creek. From the evidence adduced it appears that the mother of the child is a young woman who attended the Christmas ball at Rock Point, and danced all night, and was stopping to rest at Mr. Megerle's, on her way home. The whole case presents most revolting features.

The *West Side* says that the total number of school children in Yamhill county, between four and twenty years of age, is two thousand and thirty-nine. There are forty eight school districts, of which in eight there are no schools. The total average attendance is nine hundred and thirty pupils. The county funds in currency (at seventy-five cents on the dollar) applied to schools is $2,342. Total amount paid teachers, from district tax, $1,173; from other sources, $3,957.

Referring to the legislative record of honest "Jack" Burnett and honest "Jo" Wells, the Jacksonville *Sentinel* says: The honesty and veracity of our legislative delegation are sadly mixed up, and we fear the precedent set by Burnett and Wells has fixed a stain upon the representation from Jackson county in the future, which the election of men of undoubted integrity and fidelity to succeed them, only will wipe out. This is a lesson which ought not to be lost to the people of this county.

WASHINGTON FACT AND GOSSIP.

Statistics are now being prepared in the Treasury Department for use in the forthcoming special message of the President, regarding American shipping.

Captain Daniel Ammen, of the United States Navy, now on duty at the Navy Department, has invented an improved torpedo boat and ram, which will be experimented with at the Washington Navy Yard.

Owing to the meager salary paid to the Enumerator who took the late census of New York city, many of them have refused to serve again. Dr. Walker, Superintendent of the Census, who has recently returned from that city, expresses the opinion that the new enumeration will not increase the total figures of the first census.

A prominent member of one of the Committees on Military Affairs says Congress will do nothing with the army the present session, further than make an appropriation for its support. Gentlemen connected with this branch of the public service, however, are hopeful that the next Congress will consolidate the Commissary, Quartermaster and Paymaster General Departments.

General Pleasonton, the new Commissioner of Internal Revenue, will shortly begin the work of consolidating the Internal Revenue districts throughout the country, in accordance with the Act of July 14, 1870. It is thought that every one hundred districts will be consolidated in fifty, thereby dispensing with the services of over fifty collectors. In every State, one or more districts will be consolidated.

Colonel Robert C. Buchanan and Lieutenant-Colonel C P. Kingsbury have been released from active service at their own request. Major Lyman has been retired on account of injuries received in the service. Col. Thomas W. Sherman has been retired upon full rank of Major-General, and First Lieutenants Robert Avery and Robert C. Herry upon full rank of Lieutenant Colonel, those being ranks held by them when wounded.

THE TERRITORIES.

There is great demand in Olympia for buildings suitable for offices. Several will be erected at once.

It is reported in Port Townsend that the *Message* (newspaper) will soon be removed to Olympia, to be published in the interest of Mr. Garfielde.

A steam tug, to be called the *Alty White*, has just been built on Puget Sound. Her length is 97 feet and her engine of 800 horse power. She belongs to the Freeport Mill Company.

Transactions in land at the Olympia Land Office, during the month of December, aggregated 30,758 acres. The *Tribune* says that the withdrawal of public lands from market, on the line of the Northern Pacific Railroad, does not seem to decrease the sales, as many supposed it would. On the contrary, it appears to operate as a stimulus.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

SAN FRANCISCO, Jan 13.—To-day a game, like that last night for the same number of points and amount, has been arranged between Dion and Deery to come off within ten days. Considerable feeling has grown up between them on account of the last and former matches. It is reported that Dion will send, or has already sent, a challenge to Parker, winner of the diamond one, at Chicago, offering to play him for the diamond cue of the Pacific coast, paying his expenses here as an inducement. It is also rumored that Rudolphe will be here soon.

The bark *Speedwell*, from Punta Arenas, with coffee to Parrott & Co., is coming in.

Gas lamps are now lighted the whole length of both of the long bridges over Mission and Islais bays to New Hatcherown, over five miles from the City Hall.

Judges Hoffman and Sawyer in the United States Court to day sustained the demurrer to the indictment against Sheriff Jackson of Trinity county, charged with a violation of the Fifteenth Amendment in collecting foreign miners' tax from Chinese, on the ground that it was defective, the informant not stating material facts, and the defendant was ordered discharged. A new indictment will be drawn up and brought before the next grand jury.

INTERIOR CALIFORNIA DISPATCHES.

SAN DIEGO, Jan. 13.—The mining news from the lower counties is of the most favorable character.

The town of Banner, in the district recently located, is growing rapidly in population.

Money is more plentiful than ever before known.

LOS ANGELES, Jan. 13.—A two story frame building, on Main street, was totally destroyed by fire last evening. Cause, a defective flue Loss, $2,000, and no insurance. The house was occupied by the Rev. Mr. Atchinson.

A letter received from the Interpreter of the Bannock Indians, dated at Fort Parker, Jan 7th, by the United States Marshal of this place, announces the recovery of a white girl named Mc Intire, who was captured by the Bannocks on Raft river, 1860.

ARIZONA.

LOS ANGELES, Jan. 13.—The following is the latest from Arizona:

Three prospectors on route to Agua Frio were attacked by a large party of Indians. Two of them named Carroll and Francis were killed. The other by stratagem escaped to the Government saw mills where he made the above report. At the same time within two miles of the same spot James Thomas and Stephen Shimp, who were returning to Agua Frio, were surprised by Indians and Shimp was killed at the first fire. Thomas eluded them and arrived at the mill in safety. A detachment of soldiers have been sent in pursuit of the Indians.

Gen. Stoneman in a recent order says it is his intention to prosecute vigorous measures against the Killers, Pintes and other warlike savages.

BRITISH COLUMBIA.

Nanaimo coal has advanced at Victoria to $10 per ton.

An Indian named Tom, who murdered a white man named Clark, was hanged at Victoria on the 3d inst.

A Victoria paper, the *Standard*, is down on imported Governors. "Grow your own Governors," is the substance of several articles in its columns.

A ship, loaded with lumber from Puget Sound, is reported ashore on the west coast of Vancouver Island. The report comes from the Indians, who give no particulars.

Gustave Rosenthal and Kate Bateman, both of Olympia, W. T., were married at the St. Nicholas Hotel in Victoria on the 12th inst., in the presence of the U. S. Consul and many other invited guests. 'Twas quite an "affair."

In Victoria during the holidays, while everybody was feasting, a poor woman, the mother of three little children, alone and destitute, was suffering all the pangs of poverty and her children were crying with hunger. The poor woman could get nothing for them, and finally went mad. The parishing family was fatally discovered by some kind hearted people, the children were cared for and the mother sent to the asylum. Her name is Michaels. She is a respectable woman, whose husband deserted her some weeks ago, coming it is said to Portland, Oregon.

ODD FELLOWS' INSTALLATION AT VANCOUVER.—A friend who attended the public installation of the officers of Vancouver Lodge No. 3, I. O. O. F. on Thursday evening, has kindly furnished us the following account of the ceremonies and the festivities connected therewith:

"List of elective officers: H. G. Struve, N. G.; J. F. Smith, V. G.; G. W. Brownmiller, R. S.; James A. Orr, P. S.; S. D. Maxon, Treas.

Appointed officers: M. R. Hathaway, Warden; John E. Messenger, Conductor; Jacob Thompson, Outside Guardian; G. W. Durgan, Inside Guardian; R. W. Downing, R. S. N. G.; Levi Farnsworth, L. S. N. G.; J. Paddeford, R. S. S.; H. H. Leonard, L. S. S.; Levi Dornhit, Chaplain; J. C. Allen, R. S. V. G.; Alexander Stallicer, L. S. V. G.

"The Installation was conducted by the M. W. Grand Master, Wm. Dierdorff, assisted by Bro. St. John, R. W. Grand Warden; J. Marshal, W. G. M.; and J. C. Kingsley, R. W. S. S. The ceremonies were conducted in the presence of the officers and a large number of interested citizens, both ladies and gentlemen; the intervals being filled by singing and music on the organ by the latter. Everything passed off in good order, while the plain and practical requirement enforced upon the new officers by the M. W. G. M. seemed to be accepted by them with purpose to fulfill them. After the Installation the M. W. G. M. offered a few brief remarks to the Order, and apologized for not making an address, *in extenso*, on account of indisposition and the lateness of the hour, but promised to deliver an address at some future convenient time. Before the closing benediction, the M. W. G. M. invited the members of the Order and their invited guests, to a collation prepared at the Vancouver House by the ladies of the M. E. Church, to which repair ample justice was done; and members of the Order and all admit that the Vancouver ladies know how to do this sort of thing; or, in other words, they can prepare a collation with taste, elegance and bounty. After the repast, those who chose so to do, repaired to the Oro Fino Hall and spent the remainder of the evening in dancing."

EAST PORTLAND PLANK ROAD.—A year or two ago somebody undertook to build a plank road leading out of East Portland, toward Silverton. A short section was built and the owner commenced charging tolls. The work has, however, at some months been suspended, and we are not aware whether any tolls are now charged. The Board of Trustees have got after the affair and are determined to have the franchise vacated. At the meeting of the Board, Thursday evening, the City Attorney to whom had been referred the following questions connected with the road, submitted the following opinion:

"The violation of the conditions of the contract between Multnomah county and the East Portland and Sylvester Plank Road Company, by such company, renders the contract voidable at the option of the county. It is a stipulation of the contract that if the county wishes to avoid the contract, because of the failure of the company to perform, it shall give the company notice of that fact, and an opportunity to be heard in its own behalf. Strangers to the contract cannot avail themselves of the violations of its provisions, as long as such violations are waived and the company's bad faith excused by Multnomah county."

The Board subsequently adopted the following resolutions:

"*Resolved*, That the continuance of the toll gate within the corporate limits of the city of East Portland is an inconvenience to the traveling public and a detriment to the interests of the citizens of East Portland.

"That the bad faith of the said road company in utterly failing to comply with the provisions of their contract with Multnomah county, should not be overlooked or excused by the county, but that justice to the people of the county, and particularly to that portion residing in East Portland, demands the rescinding and avoidance of that contract by Multnomah county.

"That a copy of these resolutions, together with the report of the City Attorney, relating to the subject embraced therein, be forwarded to the County Court of Multnomah county.

A LITTLE BIG PROPOSES A BIG JOB.—Here is a specimen of East Portland playfulness:

"Whereas, Ben Holladay, President of the Walla Walla Valley Railroad Co., has made a proposition to the citizens of our sister city "Portland-on-the-Willamette" whereby they may receive the terminus of said Wallamette railway in said city; and,

"Whereas, the citizens of Portland are not willing to accept said proposition with much alacrity and the reasons are that the sum required will not be subscribed within the 60 days allotted; therefore

"*Be it Resolved*, That a Committee of three of the Board of Trustees of the city of East Portland be appointed for the purpose of communicating with the office of the Wallamett Valley R. R. Co. to ascertain what inducement would be offered from the citizens of East Portland them to cross said railway at Oswego, and make its terminal depot in this city of the Willamette."

The above preambles and resolution were offered by Dr. Loryea, and were gravely considered and passed by the Board of Trustees, at their meeting Thursday evening. We are told that some of the East Portland folks, believe in very earnest, that the little burg can and will raise a hundred thousand dollars to secure the terminal depot of the Willamette Valley road, on their side of the river.

CITY IMPROVEMENT.—A letter from Portland to Seattle paper contains this paragraph: "Last week Capt. A. P. Ankeny's new brick was ready for occupancy by the lessees, Messrs. Knapp, Burrell & Co., implement importers, and Messrs. Whitney, wholesale grocers and liquor dealers. These two large stores are now in the city, their length two hundred feet, height of upper story, etc., is an evidence of the trade which centers in our city that such immense buildings are necessary. These two fronts take in all their respective business. Gibson's and Arbuckle's buildings on First street are advanced to completion and the lower stories are occupied by merchants, whose increasing trade has warranted them in leasing these splendid stores. First street will eventually be the Montgomery street or Broadway of Portland. The stranger of a few years ago who promenades that street to-day would be astonished at the changes that meet his gaze on every side. A few years more and the city of the 'golden gate' will not possess a handsomer thoroughfare than First street of Portland." This shows how strangers look at Portland and view its future.

A NEW AND VALUABLE BOOK.—Mr. H. H. Brunner, of this city, is canvassing for subscriptions to a new and one of the most valuable works ever published in this country—"Zell's Encyclopedia, or Universal Dictionary of English Language, Science and Art," by L. Colange, A. M., D. It is published in two volumes of about 1,000 pages each, in nonpareil type, treble columns of ten inch measure, and illustrated by 2,000 wood cut engravings. The work treats of and gives reliable information on almost every available subject, so arranged as to afford more ready reference than any work of similar purport with which we have any acquaintance. The work is one which ought to find a place in every complete library, and so comprehensive is it that it will very well, indeed, supply the place of greatly more voluminous works, costing three, four or five times as much. In leather binding (the best for a library) the two volumes will cost $20, which, though apparently a large price, is really far cheaper than any equally comprehensive work in the usual five dollar volumes.

RAILROAD SUBSCRIPTIONS.—The following railroad subscriptions were obtained by the Committee yesterday:

H. Myers	$500	Hamilton Boyd	$100
R. Keller	150	Noah Lambert	100
B. Hayden	500	Samuel Sykes	50
Mrs. Martha S. Scott	150	Henschuch & Smith	50
J. Kacher	100	W. P. Abrams	150
J. McFarland	100	Everding & Farrell	50
T. R. Fryer	100	Nelson & Northrup	25
J. Bailey	50	John C. Trullinger	25
C. L. Barnard	25	G. L. Hibbard & Co	100
Holman & Hackney	100	A. Parara Bros	40
J. R. Risley	100	Wm. Church	100
Emil. Lowenstein & Co	150	J. F. Jones	50

PUGET SOUND MAILS.—The steamer *Fannie Troup* arrived from below last evening with Puget Sound mails. The high waters of the Cowlitz and streams beyond are subsiding, and but a few days will elapse till travel will be again regular.

TEMPERANCE LECTURE.—Rev. T. L. Eliot will lecture this evening at the Good Templars' Hall in Carter's building. Subject—"The value of Method in the Work of Reform." A general invitation is extended to the public to attend.

ANOTHER CHARTER FOR ENGLAND.—We learn that the *Texas Propesita* has been chartered by the new firm of Flowerdew & Howe't, to load with wheat for Liverpool.

Total receipts first half year	$1,452 75
" " second half year	1,355 10
Difference in favor of the first half year	$97 65

It will be seen that from the following exhibit that the Association is in comparatively a prosperous condition. Although the membership and receipts are not quite equal to those of the last half of the year, they are in advance of the corresponding months in any other year.

The statement hereto appended and prepared by the Librarian contains a list of the books presented to the Association for the past half year and the names of the donors.

The information and observation of your Committee lead them to believe that the Library is daily growing in usefulness and favor with the reading and cultivated public and that it has been the means of producing a very favorable impression upon the mind of intelligent visitors and sojourners as to the character and resources of this city, and through them upon the world at large.

All of which is respectfully submitted.

MATHEW P. DEADY,
Chairman Library Committee.

WEDNESDAY, Jan. 11, 1871.

List of books presented to the Library Association during the last half of the year 1870, and the names of the donors:

JAMES S. REED, Librarian.

RELIGIOUS INTELLIGENCE.

The subjoined items are from the *Advocate*:

At East Portland meetings at the M. E. Church, have been continued daily for the past two weeks, Rev. J. W. Miller, pastor. Thirteen accessions to the church have been reported up to the present time.

A letter from Rev. George Watters, Indian preacher on the Yakima Reservation, says: We had a meeting at Simcoe Church on Christmas day. Many people came. Our church full. The religious people numbered 135. On the same day we took lunch. Bro. Thos. Pearne is our leader in this good work.

The regular daily meetings at the Taylor Street M. E. Church, in Portland, have been discontinued. The Congregational Church still continues daily services with encouraging tokens for good. These services are held in the old church building on the corner of First and Jefferson streets. Rev. G. H. Atkinson, pastor.

The Zion M. E. Church of this city, is at present without a stated pastor. A note from Rev. W. H. Hillary, presiding Elder, writing from San Francisco, says: Be assured the delay in sending a brother to take charge of our church in Portland is caused by circumstances over which we have no possible control. The brother who was transferred from one of the Eastern Conferences for that purpose, has failed to come. I have been much disappointed thereby, and have applied to the Bishop for another who, we hope, will soon be here.

REAL ESTATE TRANSACTIONS.

FRIDAY, Jan. 13th, 1871.

Alexander Campbell, trustee, to A. B. Hallock, all of block 43, Couch's Addition; trustee's deed, date, March 5, 1868. consideration $1.

W. Irving and wife to G. W. Shaver, the southeast quarter of section 23, township 1 north, range 1 east; warranty deed, date, Dec. 20th, 1870, consideration, $1,000.

REAL ESTATE AT AUCTION.—Mr. A. B. Richardson will offer some city real estate for sale at auction to-day.

AMUSEMENTS.

ORO FINO THEATER.—The Bates Dramatic company will return from the Dalles to-day and will play this evening the sensational and popular drama of "The Drunkard, or Ten Nights in a Bar Room." We are sure the people will welcome them back with a full house.

CONCERT.—The Vieuxtemps Bros. and the Taylor Family had a full house last evening at their first appearance in Portland, and we think that most of the audience felt they had their money's worth of laughter and enjoyment. Of the Piano and Organ performances of Carl Vieuxtemps, we have no hesitation in saying they were very fine indeed, and in some respects wonderful; and two or three of the pieces sung by the brothers, Carl and Otto, were rendered with a taste and delicate execution which bespoke the cultivated musician. Carl's Mocking Bird was a brilliant performance and received, as it deserved, a rousing *encore*. Mr. Barney's violin solo, on one string, was finely executed. Barney draws a smooth bow. Mark Taylor's performances rangod all the way from very good to common place. His songs of "Everything Goes" and "My Nose" were numerous, and were heartily laughed at. His Yankee character had a few touches of genuine good humor, but upon the whole it was not a remarkable hit. The "Old Mining Gent" was really his best performance as to character dressing and acting. The concluding "Local Song," though it produced much laughter when an occasional hit was made at some well known individual, was the merest doggerel set to execrable music. Mark is a funny sort of fellow, a punster and rhymer, but as a spout and composer of even passable verses, he is not a success, if we may take his last night's specimens as his average. Notwithstanding this, he makes his audience laugh heartily, and that is what they go for.

To-night the company will appear again in an entirely new programme.

LOCAL BREVITIES.

Judge Stout is confined to his bed by illness.

There was a general stir yesterday in the matter of street cleaning.

The Insane Asylum at East Portland now contains one hundred and forty patients.

To-morrow the Catholics will celebrate the festival of the Holy name of Jesus.

The Catholic Parochial school on Stark street will be discontinued after the 20th inst.

The Oswego Milling Co. will commence the cutting of lumber next week.

The plans of the Masonic Temple for this city are for a building fifty by one hundred feet with an upper hall full size.

Over two hundred city licenses, required by ordinances, have been issued for this quarter.

ARRIVAL OF THE ORIFLAMME.

The N. P. T. Co.'s steamship *Oriflamme*, F. Bolles, Commander, from San Francisco, arrived at her wharf at 1 o'clock A. M., with the following list of passengers: B Goldsmith, Jos Teal, A P Ankeny, Capt Flavel, C S Potter and family, Jas Allen, J N Virtue and family, E B Huntington, C H Larrabee, Mrs A J Duniway, Mrs A Levi, C E Bartelle, Sol Rosenfeld, J Golding, R Winters, G S Haskell, H M Bear, S M Millard, R H Millard and family, E Bates and family, W M Roberts and family, Miss S E Montgomery and Nephew, F G Yapp, H Schultz, J G Walker, Miss J Barrett, Mrs F Smith, L Provost, R Cary, H Cummings, A Bush, Wm Thompson, John Robinson, Mrs F S Mead and two children, Miss A Bowers, Miss S Elizabeth, L D Parker and wife, J M Coleman, R Girton, E Carney, H W Dickey, T W Beaver, A V Cadwell, W P Graves, G W Potter, (W. F. & Co.'s Messenger,) and 57 in the steerage.

CATHOLIC LIBRARY OFFICERS.—The following are the officers of the Catholic Library and Christian Doctrine Society for the present year: President, D. J. Malarky; Vice President, John Barrett; Recording Secretary, Jos. R. Wiley; Corresponding Secretary, Wm. F. Trimble; Treasurer, H. L. Harman; Librarian, James J. Murphy; Assistant Librarian, Geo. F. Stephens.

DETAINED.—On Thursday morning, the ship *Montgomery Castle* and the barks *Lyra* and *Almatia* were still lying at anchor off Astoria—detained by rough weather on the bar.

December is here, with her storms and her rain,
And it makes the folks of cold weather complain.
Hark ye, dear gentlemen, this need not be so,
You can all be kept warm, for O'NEIL & CO.
Can fit you so nicely, so snug and so warm,
With CLOTHES that are proof 'gainst the bitterest storm,
And they sell them so cheaply, that all who go there,
Unlike Miss McKinsey, can find something to wear.

LIKE "NATURE GOOD."—Artificial teeth are of little use and easily detected. Take care of theregal ones. All you need is fragrant SOZODONT. Use it daily, and your teeth will be the last of nature's gifts to fair you.

Have you a Cough, Cold, Pain in the Chest, or Bronchitis? In fact, have you the premonitory symptoms of the "immediate archer," Consumption? Know that relief is at hand in WISTAR'S BALSAM OF WILD CHERRY.

TEMPERANCE MEN ADMIT ITS UTILITY.—No attempt has ever been made or ever will be made, to disguise the character of PLANTATION BITTERS. It contains alcohol, and no bitters that does not contain alcohol is worth a rush. Water will neither preserve the virtues of tonic vegetables nor render them active in the system. This is a chemical fact which no one competent to deliver an opinion will deny. Water tonics sour on the stomach, if they are not sour to begin with, (which is frequently the case) and produce and promote indigestion instead of curing it. Let it therefore be distinctly understood that PLANTATION BITTERS is an alcohol restorative. But mark this: it is strictly a medicine; not a beverage. It is to be taken in limited quantities and at stated times, like other remedies and medicines, and therefore its use is in accordance with temperance law, as well as with that "higher law" which renders it incumbent upon every being gifted with reason to resort to the best possible means of accomplishing a salutary end.

The particular attention of the Farming Community is called to our recent importation of Improved MOLINE PLOWS, greatly superior to any other Moline Plow in the Market, notwithstanding a certain firm, a mewhat noted for truth and veracity—"so-called"—persist in saying that they are "bogus," "California made," etc.

Don't fail to call and look at one of the MOLINE PLOW Co's LATEST MAKES; and we think you will coincide with a Yamhill Farmer; who, after "looking 'round" and hearing the old story about bogus Molines, etc., delivered himself thusly "Well, Myers, I'll just chance a couple of those new plows, and if they are 'bogus,' as that gassy chap above here says, I'll be d—ared if I won't take bogus in mine every time."

Next month we expect another shipment of those justly celebrated MAIN WAGONS. Have now only a few left of the last lot, STILL FURTHER IMPROVED over all heretofore received. It is not presumption on our part to say that they are head and shoulders above any other Farm wagon in market, in point of material, workmanship and finish, having achieved a reputation throughout the West, and wherever introduced on the Pacific, second to no other wagon. Some of the first sold here three years ago—have never yet had a tire re-set, and our experience has enabled us to order many changes and improvements over the ordinary make of western wagons to meet the wants and requirements of this coast. We shall sell the MAIN WAGON at the lowest possible price for a first class wagon, and WARRANT them such, and in this connection beg to caution purchasers not to confound them with "inferior makes" that others are, or may endeavor to sell on the strength of the established reputation of the Main manufacture, particularly after having made repeated and persistent efforts (without avail) to purchase wagons of Mr Main for this market

GENERALITIES.

A somewhat philosophical gentleman in a barber's shop, spoke out from his lather, saying, "Well, for the life of me, I don't know how the Prussians move such immense bodies of men." "That's about what ailed Napoleon," said the Teutonic shaver.

A young lady was approached in a city church by a sympathizing friend, and asked if she did not wish to get religion? "Yes," she replied, "but not until the 2d of January; I want to go to the ball first."

It may be regarded as settled that two railroad trains cannot pass each other on one track. A Western road on which the attempt was made lost $100,000 in the operation, and is not likely to make another experiment of the same kind.

A good sort of man was recently asked to subscribe for a chandelier for the church. "Now," said he, "what's the use of a chandelier? After you get it, you can't get any one to play on it."

The Prince of Wales is going to India next year. The Chicago *Post* unkindly says that he has seen the elephant and fought the tiger everywhere else.

The Government of Saxony has purchased six millions of cigars of a good quality, and sent them to the Saxon troops in front of Paris.

The Election in Georgia.

Following is the substance of a Washington telegram, dated January 3d:

Trustworthy evidence shows that in the recent Georgia election steps were taken in many parts of the State to prevent negroes from voting, by threats and intimidation. At Atlanta two lines were formed, whites on one side of the building and blacks on the other side. On the side of the whites no interruption occurred to the voting, and the votes were rapidly thrown. On the negroes' side the polling place was so densely crowded by roughs as to make it almost impossible for a man to crush through to the polls. Three times the place was cleared by the military, and instantly recovered by the same mob. A man deliberately spit in the face of the United States Marshal, and sprang on a bench, drawing a revolver and shouting for a riot to begin. The Marshal was entirely helpless, and went home. The Republican members of Congress, when [illegible] elected five.

[illegible] where Bradley (colored) ran as an independent candidate, was lost to the Radicals by about 2,000 negroes voting for [illegible]. It is alleged that he was bired for $600 to run by the Democrats. In regard to the future, the indications are that the better class of white voters are inclined toward a support of the Administration as the surest possible means of securing peace and prosperity to the State, and a large Republican triumph next year at the election is predicted.

An old joke, made memorable by Mr. Theodore Hook, has recently been practically played off by some sharp rogues upon unsuspecting and timid farmers in Canada. There is a great interest in relation to the exact route of the projected Canada Southern Railway, and several routes having been surveyed, and some sharpers conceived the idea of taking advantage of this and putting money into their own pockets thereby. Procuring some surveyors' instruments they started out upon what was the supposed route. Coming up to a farmer's house, they would run a line directly through his buildings, or in such a manner as to damage him as much as possible. When the farmer saw where the road was "bound to be," and his great disadvantage, he would become somewhat excited, and express to the surveyors his regret that his property must be greatly damaged. Then they would mildly hint that for a consideration he might possibly be swerved, to a particular point, so as to leave the building unharmed. The farmer would scrape together such sums as he was able to command, which, being made over to the surveying party, they would run the line wherever it suited him that it should go. The trick was played quite extensively, and the unsuspecting Provincials were relieved of considerable money to the advantage of the rogues.

A German officer writes from before Paris that he had suddenly opened a brisk fire upon some evening previous. On [illegible] what was the matter, it [illegible] that some Bavarian pickets [illegible] of sacks of potatoes. [illegible] French had attempted to [illegible] from a field lying between the [illegible] Bavarians had [illegible] but had refrained [illegible] the time, ruthlessly creeping [illegible] them. They would till the French had [illegible] which they wanted, putting them [illegible] were about to depart, [illegible] on them, scattering [illegible] and fled back to the city in hot haste. Although they probably did not know that they were vastly superior to the Germans in number. The Bavarians now took the potatoes which the French had dug up for them, and had not been able to take away, and carried them in triumph to their own camp.

Ship building in the British North American Provinces has shown a progressive decline since 1853, not because of the depredations of "cruisers," high taxes or depreciated currency, but because steam has displaced sails—the Provinces, like the United States, not having kept abreast of the times. In the Quebec district the vessels launched in 1853 comprised an aggregate of 1,117,136 tons, against 604,000 tons the present year.

Hippophagy is introduced in London. A man has been arrested and held for trial on a charge of having, by his own confession, been in the habit of slaughtering large numbers of horses to be manufactured into sausages. He has in operation one boiler capable of boiling down two or three horses at once.

A man in Essex, Mass., refused to have the pegs of a new pair of shoes he was buying for his boy rasped off, because in that case the boy would run all over town and the shoes wouldn't last him three weeks.

LAND DEPARTMENT OREGON & CALIFORNIA RAILROAD COMPANY.

SALEM, OREGON, October 22, 1870.

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned:

First—Congress has granted to the Company all alternate sections of the public lands designated by odd-numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a pre-emption or homestead claim has been attached prior to the withdrawal by Government of the lands co-terminus with the first division of located line from East Portland to Jefferson, at 12 M. of January 16, 1870. The second division of located line from Jefferson to a point six miles south of Roseburg, May, 1870, and from the last named point to the California line, 1871.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in gold coin, and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U. S. Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government: The party can locate the land if occupied by no one at the land or mortgage it; he is saved the expense of lawyers' or agents' fees, and expenses of witnesses to go to the Land Office to "prove up" his claim; he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect. I. R. MOORES,
d22dlaw Land Agent O. & C. R. R. Co., Salem

DISTRICT COURT OF THE U S FOR THE DISTRICT of Oregon.—Whereas, information has been filed in the District Court of the United States for the District of Oregon, on the 6th day of January, 1871, on behalf of the United States by J. C. Cartwright, Esq., Attorney of the said United States for the District aforesaid, against one large wooden tank of Beer containing about 200 gallons; three large empty wooden tanks; one small empty wooden tank with pump; two hogsheads of Beer containing 100 gallons each; two hogsheads of Beer containing 60 gallons each; three barrels of Beer containing 40 gallons each; sixteen kegs of Beer containing 10 gallons each; eight kegs of Beer containing 5 gallons each; two empty casks, capacity 40 gallons; one empty cask, capacity 100 gallons; twenty four empty kegs, capacity 5 gallons each; two empty kegs, capacity 15 gallons each; fifteen empty kegs, capacity 10 gallons each; one malt mill, and one horse power; one force pump and hose; one malt dryer, one mash cooler; one copper brew kettle, capacity 200 gallons; one malt scoop from one bushel scoop to wood, one pump not in use; two earthen jars; one sprinkler; one funnel, two ladles; one mash tub; one tin gallon measure, two wrenches; two branding irons; one burning iron; one iron rake, two hundred beer hoops; one screw; one Fairbank's scales, which by Wilson Bowlby, Esq., Collector of Internal Revenue for the District of Oregon, on the 29th day of November, 1870, at Corvallis, in said District of Oregon, was seized as forfeited to the use of the said United States, for the causes in the said libel and information mentioned, and praying the usual process and monition of the said Court in that behalf to be made, and that all persons interested in the said one large wooden tank of Beer, &c., may be cited in general and special, to answer the premises and all due proceedings being had that the said property above mentioned may, for the causes in the said information mentioned, be condemned as forfeited to the use of the said United States. Now, therefore, in pursuance of the Warrant under the seal of said Court, to me directed and delivered, I do hereby give public notice to all persons claiming the said above mentioned goods or any part thereof, or in any manner interested therein, that they be and appear before the said District Court to be held at the city of Portland, in the county of Multnomah, in said District of Oregon, on the 6th day of March next at 10 o'clock in the forenoon of that day if the same shall be a day of jurisdiction, otherwise, on the next day of jurisdiction thereafter, then and there to interpose a claim and to make their allegations in that behalf.
